

benefits of certification

# benefits of certification

*“I believe having RABQSA certification has helped me gain credibility with my clients who have consistently recommended my services to organizations. I am now on their list of preferred pre-qualified service providers.” Andy Sag, Certified QMS Auditor since 1993*

## Professional recognition and reputation

As an RABQSA certified professional, your scope is unlimited. RABQSA certification identifies you as a leader within your field and signals that you have higher professional standards, greater technical knowledge and better business skills than your global competitors. Your RABQSA certification makes you stand out from the crowd.

## enhance your skills and qualifications

Build on your existing technical expertise and competence to maintain your reputation and status as a leader in your field. Invest in your future and equip yourself with additional skills, or just keep up to date in your area of specialty to expand your career opportunities and maintain that competitive advantage.

## international recognition

Internationally, RABQSA is widely recognized and respected as the leader in competency-based certification. Our certification is one of the world's most portable credentials and is a valuable tool for opening doors both locally and internationally. Numerous professional bodies across the world recognize RABQSA, including:

- International Register of Certificated Auditors (IRCA);
- National Registration Board for Personnel and Training (NRBPT), Quality Council of India (QCI);
- Institute of Environmental Management and Assessment (IEMA);
- Academy of Certified Hazardous Materials Manager (ACHMM);
- Americas Aerospace Quality Group (AAQG); and
- American Chemistry Council (ACC)

RABQSA certification offers you the flexibility to pursue career opportunities in a variety of roles, in any industry you choose, anywhere in the world.

## local representation

In addition to our principal offices in Milwaukee, Seoul and Sydney, and to support our growing number of international members, RABQSA has established international offices around the world. They offer access to our products and services and assist you with recognition of your profession.

## industry designed and supported certification

RABQSA designs, develops and delivers certification products with the engagement of industry. All of our purpose-built schemes must deliver three key requirements:

### must add value to the individual

Career advancement, money earning potential and increased recognition within industry, regardless of specialty, are essential outcomes when creating RABQSA certification for professionals in any role, any industry, anywhere.

### must add value to the business

The process of achieving RABQSA certification to industry best practice, simplifies employment selection and reduces the risk to the businesses utilizing employed or contracted professional services.

### must add value to industry

Industry designed certification ensures the services offered by RABQSA certified professionals are recognized up and down the supply chain as effective, value added and able to demonstrate tangible outcomes.

# benefits of certification

*"I realized that without getting certified I would not have my skills and competencies recognised. My registration as a quality auditor is the evidence I provide to my customers to prove my competency". Vin Perera, Certified QMS Auditor since 1993*

## Accessing information and resources

### the international register

If you are an RABQSA certified professional you can promote your services by having your details listed in the "Find a Professional" search register on the RABQSA website. This free online service allows industry and prospective employers to locate a professional who meets their specific needs.

RABQSA's ongoing promotion of your skills and qualifications ensures your credentials remain highly regarded and coveted. To reinforce and increase the level of recognition, RABQSA is continuing to promote positive awareness of RABQSA certification through government relations and targeted media and marketing campaigns. This way, RABQSA continues to promote the value certified professionals can add to any business.

### special offers and discounts

Professional Indemnity Insurance: RABQSA in conjunction with AON and FirstCity Partnership Limited, offers a number of special PII policies available exclusively to our certified personnel with competitive rates and a streamlined process. Visit <http://rabqsa.com/cust01.html> for more details.

### media services

RABQSA circulates certification updates, training provider advisories, news releases, event notices, job vacancies and customer surveys. Each month more than 8,000 people from around the world access and download our information services. By taking advantage of RABQSA International's media services, you have the potential to reach our database of certified professionals worldwide.

## Making contact with us have your working commitments changed?

RABQSA is committed to supporting lifelong relationships with certified professionals and offers reduced grades or scopes and selected discounted offerings upon application to members who are:

- Retired;
- Unemployed or temporarily out of the work force;
- Invalid or primary carer;
- Undertaking home duties;
- Working in a part-time capacity; or
- In special circumstances causing hardship.

For more information, please contact your nearest principal office.

*"I think the perception of managers who have an understanding of the approach to management systems has changed...people are looking for someone with certified experience to continually improve and expand programs." Phillip Barnes, certified EMS Auditor since 1999*
